ABOUT US

SheMax Company is a leading plant in Ukraine for the production of certified electrical goods for beauty salons and private craftsmen. On its own equipment, the company produces a wide range of products aimed at maintaining and preserving the health of beauty masters.

Shemax is a family business where Sergey Shelest is responsible for new product design and engineering and Tatyana Shelest is responsible for marketing and sales.

Every model embodies a completely new approach to development and offers fundamentally new ideas.

Products have quality certificates and patents. SheMax can be safely called the invention of the century.

Today, SheMax dust collectors work in beauty salons in 28 countries around the world - from France to Portugal, from Greece to Great Britain.

In addition to technical advantages, the designers attach great importance to the external aesthetic appearance, the unique design is a key feature of SheMax.

MANUFACTURING

Today, the SheMax company is building a second factory in Ukraine. The opening of which is planned for December 2022.

The SheMax factory is fully automated, starting from the sketching and ending with the packaging of the finished SheMax product.

The enterprise has installed high-tech large-sized equipment of the latest generation of leading American, Turkish and German brands. Modern equipment at the SheMax plant ensures speed and high quality of products.

SMART V PRO SHEMAX

BUILT-IN DUST COLLECTOR

Dust collector with replaceable filter
 Built-in table
 Continuous engine operation - 6 years
 Number of engines - 1 pc
 Centrifugal motor
 Power supply-3A
 The area of the dust collector is 24x17 cm
 The lattice is on magnets
 Wave-shaped body for foot comfort
 The length of the wire is 2.2 m

- Speed regulator
- Motor power - 60W
- Size - 34 x 21 x 9
- Weight 3,25 kg

- Weight - 1,52 kg

SHE5

BACTERICIDAL RECIRCULATOR SHEMAX AIR

Inside the case there is a safe ozone-free lamp, which performs the main function - air disinfection.

Thanks to the presence of a silent engine - the air passes through the recirculator and helps to process a larger volume of air in the room. Thus, all microbes and bacteria contained in the air are killed by the radiation of the lamp, disinfecting the room in which the recirculator is installed.

- Motor power-30W
- Size-66 x 12x12
- Product weight-3,60 kg

SHE-R-15

FILTER FOR DUST COLLECTOR SHEMAX
